space

Showerscreens,  
mirrors and splashbacks

Our aim is to make your  
Packers experience as  
enjoyable and stress free as  
possible. Our reputation has  
depended on it since 1967.

Halifax, grey tinted glass and black frame

# Milan

The Milan is the perfect shower enclosure for those who are after the aesthetics of a semi framed look but are restricted by budget.

The Milan's features have set the benchmark for prefabricated shower enclosures in today's market.

## Features

- Magnetic seal enclosure
- Adjustable widths
- Semi framed toughened glass door
- Ease of installation
- Screens are 1850 high and 1950 high and are available up to 1580 wide.
- Available in a chrome finish.

# Integrity

The low profile sill design, combined with it's unique pivot system, ensures the Integrity reflects the latest in design aesthetics and technology.

Favoured by homeowners and builders alike, the Integrity is the perfect solution if you are after an economical, custom built shower screen in a choice of finishes.

After winning an "Australian Design Mark" award for its unique features and smooth contoured profiles, the Integrity is one of the safest and most proven enclosures in Australia today.

## Integrity features

### **Integrated fixed panel**

Fixed panels are glazed directly into the outer frame, dramatically reducing the chance of residue accumulation.

### **Sill option**

The low profile design is foot friendly, unobtrusive and reduces external splashing for a cleaner, drier and safer bathroom.

### **Low maintenance**

Smooth contoured profiles minimize soap and residue accumulation and the need for cleaning.

### **Pivot system**

The lowering effect of the stainless steel pin automatically reduces the sill gap on door closure, which further assists with elimination of external splashing and improved water resistance.

### **Sill-less option**

Perfect for handicap access and can be assembled without the bottom sill section (suitable tile fall is required in these applications).

# Profile

Indulge your imagination and create a stunning bathroom with our semi-frameless Profile screen.

The fully frameless door combined with its smooth outer perimeter frame creates an affordable option for those seeking a more frameless appearance.

Made to your specifications and with true design flexibility, the Profile deserves a place in every bathroom.

*As with any semi frameless or frameless enclosure, it's important shower head location and floor levels are considered in an effort to minimise water leakage.*

## Profile features

### Frameless door

Made from 6mm toughened glass the frameless door of the Profile belongs in every bathroom. The combination of sleek pivots and the option of 180° door swing enables inward as well as outward door opening if required, providing maximum use of any bathroom area.

### Water resistance

Using a stainless steel pivot pin, the Profile features a "positive close" low friction design mechanism, providing the benefit of whisper-quiet and trouble free operation. The lowering effect of the design automatically reduces the gap between door and sill on closure, dramatically improving water resistance.

### Pivot mechanism

The Profile can be specifically made to include magnetic or non-magnetic seal closers, minimizing water leakage. This feature combined with the sleek bottom frame means your bathroom remains drier and safer at all times.

### Low maintenance

Smooth contoured profiles minimize soap and residue accumulation, reducing the need for regular cleaning.

# Frameless Madison

Modern, sleek, pure luxury. These are just a few of the ways you can describe the Madison. Allow yourself to feel like you're in a resort every day, you deserve it.

The timeless elegance of a fully frameless Madison shower screen will not only enhance the value of any bathroom it will create an environment where you can feel totally pampered.

## Features

- Fully frameless 10mm toughened safety glass
- Can be customised to any size and configuration
- Available in standard or super clear "low iron" glass
- Clear, frosted, tinted and decorative glass options also available
- Easy to maintain with no aluminium sections.
- Available with chrome, satin chrome or brass hardware.
- Large range of hardware designs available
- Concealed wall fix available for a clean, modern appearance

*As with any semi frameless or frameless enclosure, it's important shower head location and floor levels are considered in an effort to minimise water leakage.*

# Mirrors

Mirrors not only add space and light to a room, they add interest and can bring it to life.

Available in almost any configuration, mirrors are available in 4mm or 6mm with options of a sleek simple polished edged or with single or double bevelled edge profiles.

The decision about mirrors is an easy one, it now comes down to how far you want to go to create the perfect space.

# Splashbacks

The appeal of painted glass lies not only in its timeless appearance but in its ease of maintenance.

Packers glass splashbacks have stood the test of time in thousands of new homes, renovations as well as countless commercial applications.

Choose from our standard colour range or supply us a sample of your special colour, the options are endless. Our splashbacks are all made using 6mm toughened glass and all colours are available to be painted on either our "true clear" low iron glass or the more economical "standard" (green tinge) option.
